Dear Victor Ameh,

Thank you for contacting UK Visas and Immigration International Contact Centre.

With regards to your enquiry about the status of your application, I can confirm that your application is being considered and is currently awaiting a decision.

You will be contacted by the Visa Application Centre (VAC) when your passport is ready for collection. Do not attend the VAC until you have been invited to do so.

You are not required to book any travel before you apply or before a decision is made on your application. You'll only be refunded if we have not started processing your application.

We strongly recommend that you do not buy a non-refundable, non-flexible ticket to the UK, until your visa application has been approved and you have received your documents.

Regards,

Harish
